

OUR VISION:

CAC is an organization that consistently builds on existing family and community strengths and resources.

OUR MISSION:

The mission of CAC is to assist individuals and families with access to culturally competent, cost effective social and clinical services to ensure their needs are met and improves their quality of life.

OUR OBJECTIVES:

To develop and implement effective interventions and programs that address the greatest needs of individuals and the community.

To provide a centralized location that aligns partners and programs with individuals and families being served.

Community
Access Center

Our families are our priority.

Community
Access Center

We regard the people we serve beyond clients or customers—they are our friends, our neighbors and our family.

WHO WE ARE

CAC was developed for the community to help local citizens navigate through the many resources available to them. The center makes it easy to know what services and resources are available in languages and cultures familiar to them.

CAC brings many agencies and services together with in the walls of the center itself to more effectively serve families, prevent duplication of services and assist in accessing services that will benefit the particular family's needs. Working together as a team, we are able to accomplish more and with increased efficiency and effectiveness.

The services and support system of the CAC builds on existing family and community strengths and focuses on improving the lives of those within our community. Referrals are made to local agencies for medical, emotional, and financial support. A "One-Stop Shop" is the focus of the Center and the operations consist of helping people find assistance, regardless of the crisis or circumstance. The Community Access Center provides a centralized location to assist individuals in determining their needs and identifying the appropriate community services. Residents can access these services and be assisted in making their initial contact with numerous agencies, along with assistance through the application process if needed.

HOW WE HELP

CAC is an organization dedicated to the support of community building. We are actively focused on providing services for those in need within the broader community — particularly to newly arrived immigrants, as we advocate cultural and social entrepreneurship. We are dedicated to serving and empowering the community at a grassroots level by providing our services with respect and dignity.

CAC strives to be a resource by providing information, referral and advocacy services to low income families.

There are many resources available in our community, however these resources are often not utilized. Many people do not know they exist or how to access them. Lack of awareness of resources also frequently results in unnecessary duplication and under-utilization of existing services.

Join our team of professionals and partner organizations in this innovative initiative to provide services to those most in need in our community.
